

Maximum Networks (UK) Limited

Why should any organisation use an independent supplier of network communications solutions when they can go direct to suppliers or use the internet to secure the best deal for their company?

Here are 10 reasons why you should use Maximum Networks

- We have many years of experience in the network communications field.
- If you allow us to, we can discover your true company needs and won't just quote for the things you believe your organisation wants.
- We will then propose a solution that matches these needs and explain in simple terms what benefits this will bring to your organisation.
- The majority of the major suppliers of network communications services are our business partners.
- Our business partners keep us informed of the products and services they supply. We also carry out research on emerging technologies enabling us to provide cutting edge solutions.
- We buy, distribute and manage these services every day on behalf of our customers enabling us to provide the most comprehensive solution at the best possible price.
- Our buying power is such that we secure the very best rates for our clients.
- We don't just supply products and services. We deliver high quality post sales support that is imperative to all of our customers.
- Using Maximum Networks means you only have to deal with one supplier for all of your communication needs.
- As part of The Maximum Group, we have the backing of a stable but fast growing organisation with many years of diverse communication expertise.

That's why your organisation should choose Maximum Networks

That's why your organisation should choose **Maximum Networks.**

improving
performance
reducing
costs

Maximum Networks Services Include

Reduced Call Spend

Maximum Networks supplies incredibly competitive call rates through our business partners. Let us examine the patterns of your expenditure and we will come up with a proposal that best suits your needs.

Landline Services

Let your organisation benefit from switching your line rental supplier to Maximum Networks. Businesses of all sizes can have a complete, convenient line rental package that can save money from your normal charges. We supply analogue, digital and broadband connections from a number of Tier 1 suppliers.

Non-Geographic Number (NGN) Services

We specialise in the supply and management of NGN's (0800, 0845, 0870 etc). No matter if you are a Small to Medium size Enterprise (SME) or a global organisation, sensible use of NGN's through the Intelligent Network (IN) can transform your view of the world and facilitate your customers' needs. The use of Auto Attendant, queue management, recording of calls, improved call distribution, a tailored reporting package and many other facilities are available. These can assist your business growth by enhancing your customers' experience.

Mobile Communications

This is a potential minefield for any business who is striving for the best deal. Every supplier has their strengths and weaknesses which changes rapidly over time. As an independent, we will provide you with a solution that is tailored to your needs. We look at your mobile use and calling patterns in order to secure the right deal for your company.

Hosted PABX

Centrex Services have been in and out of vogue for a number of years. But with the new emerging technology of Hosted PABX becoming available, there is now a real alternative to users who want to combine voice and data, have modern communication facilities, use IP (Internet Protocol) telephony without breaking the bank in the process.

That's why your organisation should
choose **Maximum Networks.**
